

# ForeverGreen Expanding Distribution

Thursday June 5, 9:15 am ET

OREM, Utah--(BUSINESS WIRE)--ForeverGreen Corp. (OTCBB:[FVRG - News](#)), a manufacturer and distributor of all natural whole foods, today announced the company is realizing increased sales in Mexico while its North American market continues to attract distributor leaders from competing companies.

ForeverGreen's Mexico expansion continues to grow month over month resulting in Mexico recently growing to the company's fourth largest sales market. ForeverGreen still considers Mexico to be in the pre-launch stage as leadership and distribution continues to be established in the region. Official opening events will be held later this summer as will the introduction of the company's energy drink ElectriFire.

ForeverGreen continues to attract established distributors from competing organizations that will significantly impact future revenues. "The addition of established industry leaders will significantly impact future sales as these distributors have proven themselves in the industry," commented V.P. of Global Sales Rick Redford. One such group recently joined ForeverGreen in May who was grossing over \$300,000 in monthly sales with their previous organization. While it will take some time to rebuild to those past levels, the potential for this kind of impact is certainly there.

"We are very satisfied with the current direction of ForeverGreen and the momentum we are generating through our increased marketing efforts," continued Mr. Redford. "We are continuing our increased efforts with our CEO tour which is increasing both awareness and new enrollments; in fact, we are adding new dates and locations almost weekly. There has been a great response to the Your Business At Home Magazine featuring our company that is generating awareness and attracting new customers."
