

ForeverGreen Oils Essential to Future Growth

Thursday March 13, 9:15 am ET

OREM, Utah--(BUSINESS WIRE)--ForeverGreen Worldwide Corporation (OTCBB:[FVRG](#) - [News](#)), a manufacturer and distributor of all natural whole foods, today announced its extensive line of essential oils continues to play a significant role in attracting new distributors, customers and expanding overall sales.

Essential oils have been around for thousands of years including numerous historical references in important cultural and sacred texts. Throughout all this time, oils have been used for much more than massaging tired muscles as they are traditionally given as gifts and used in many important cultural and social settings. The useful nature of essential oils continues to be substantiated in our day.

Early on, ForeverGreen teamed up with internationally recognized essential oil expert Dana Clay Young to bring ForeverYoung Essential Oils to the world. These oils are 100% pure, premium-grade essential oils, formulated with Mr. Young's personal touch and combined with the best of nature's goodness. He is able to produce the highest quality essential oils due to his proprietary processes and because he only uses the very best raw materials from around the globe. Finally, the finished oils are independently tested to ensure quality and purity.

Currently, ForeverGreen's essential oils line is one of the most successful product lines in the ForeverGreen catalog. The properties of essential oils, and Dana Young's dedication, lead distributors and customers to view oils as a source of continued growth for revenue and recruiting.

The company is taking steps to meet the expanding oils interest with Mr. Young hosting an independent Essential Oil Boot Camp immediately following ForeverGreen's Global Convention, from April 7-9. This event introduces attendees to essential oils, discusses the latest oil research and studies, teaches how and when to use the oils, as well as, provides first hand opportunities to experience oils with the master formulator himself.

"We are very fortunate to have a highly acclaimed oil expert working

directly with ForeverGreen to bring the best products to our distributors and customers,” stated ForeverGreen’s CEO, Ron Williams. “Essential oils offer numerous benefits whether used topically in massage therapy or in aromatherapy applications. Our ever-expanding oil line is vital to our operations and certainly presents significant growth opportunities for our future.”
