

Rainmaker - 5.8oz/165 g

Rainmaker for your health... because roses are electric. In one field of plant nutrient analysis, researchers rank plants according to their ability to emit delicate and finely-measured electrical frequencies. Empty, nutrient-poor foods emit extremely low frequencies measured in MHz. Florals, such as roses, rank the highest in electrical frequencies. We named this bouquet of floral essences Rainmaker because of the legend of the Rainmaker. The Rainmaker is the source of all power, moving the heavens and the earth. Rainmakers take responsibility for everything around them. This remarkable blend of floral flavors created by our AMP process will infuse a life force throughout your body almost instantly. Distance yourself from the frequency of empty nutrition with an infusion of Rainmaker in your drinking water.
