

ESSENTIAL OIL - BIRCH -

Birch Essential Oil - 10 ml (0.33 fl.oz.)

North American birch is a large tree with a fragrant inner bark. It is the real source of the "wintergreen" essential oil used for chewing gum, breath mints, and many medicines because true wintergreen is much more expensive. Birch essential oil is the main ingredient in the men's fragrance "Russian Leather" (so named because the Russian's used birch oil to keep their leather bookbindings soft and free of insects).

Ingredients

100% pure, premium-grade, wild-crafted Birch oil from Canada.

Note: Due to the supply of the raw materials, some oils may not be available during certain times of the year.

Responsible cautions for using essential oils

- For topical and aromatic purposes only.
- Dilution recommended always.
- Keep out of reach of children and avoid the eye area.
- Do not apply directly to skin without diluting.
- Do not use if pregnant.
