

SOME OF THE HIGHLIGHTED AMPED INGREDIENTS:

Rose – Roses contain high amounts of Vitamin C that support the digestive system while nourishing the body. Roses contain Vitamin A derivatives crucial for replenishing skin and strengthening nails.

Astaxanthin – A powerful, natural, biological antioxidant extracted from marine micro-algae. Astaxanthin nourishes the eyes, brain and central nervous system.

Ginger – In addition to digestive benefits, recent studies have confirmed that ginger helps alleviate motion sickness. Some Eastern medical systems use ginger to reduce joint pain.

Frankincense – Commonly referred to as the “mother of all essential oils”, Frankincense is excellent for many conditions and is known to have a calming effect.

FREQUENSEA™

With 100% Pure
Marine Phytoplankton

Complete your Nutrition with
The Ionic Whole-Food Tonic!

WHAT IS MARINE PHYTOPLANKTON?

Scientists at NASA theorize that ages ago, the world was changed forever. The appearance of tiny organisms with the ability to convert sunlight, water and minerals into protein, carbohydrates, vitamins and amino acids marked the beginning of life. Marine Phytoplankton, these single-celled plants, are the basis of life on planet Earth and are the ‘vegetation’ of the ocean. Marine Phytoplankton are consumed by the smallest to the largest forms of life. Whales that feed on plankton and krill are known to live up to 200 years.

MARINE PHYTOPLANKTON

- 400 times the energy of any known plant
- a major source of the Earth's oxygen supply
- the first known food or plant on Earth
- whales live on it
- more than 200 sea vegetables
- nutritional analysis that is second-to-none
- nourishing and complete proprietary blend
- has eluded man until now
- exclusive to ForeverGreen

FREQUENSEA™ IS CREATED USING EXCLUSIVE PATENT-PENDING TECHNOLOGIES

It started on a sea farm...

The Marine Phytoplankton in FrequenSea™ is harvested on a sea farm in the Pacific Northwest where over 200 different species of Marine Phytoplankton thrive, a variety unrivaled anywhere else in the world. Other farms boast 12, 25, or 50 different species. This sea farm developed an amazing renewable process that re-creates the spring bloom—a time of year when phytoplankton photosynthesis is maximized—every month! The process actually replenishes more phytoplankton back to the ocean than it takes from it. This supports an amazingly diverse ecosystem near the farm.

This exclusive harvesting extraction process allows us to combine the benefits of phytonutrients with a natural and balanced composition of sea minerals.

Exclusive AMP Process

ForeverGreen uses a natural, environmentally conscious CO₂ extraction process to capture every nutrient from the whole plant without destroying its nutrients. This unique

process preserves the **essential oils, resins,** and powerful **antioxidant-rich phytonutrients** of the whole plant.

Once the CO₂ process is complete, we use the AMP process. The AMP process is a technological breakthrough, emulsifying the plant components and rendering them water-soluble making the nutrients instantly bioavailable in the body.

THE BODY HEALS ITSELF WHEN PROPERLY EDIFIED, AND NOTHING EDIFIES THE BODY LIKE MARINE PHYTOPLANKTON

WHAT DOCTORS ARE SAYING ABOUT MARINE PHYTOPLANKTON:

“Marine Phytoplankton is one of the most rare ingredients on the planet because it contains, in a concentrated form, almost everything you need for life or the rebuilding of a healthy life.”

– Jerry Tennant, MD.

Head of the Tennant Institute of Integrative Medicine in Dallas, TX.

“Marine Phytoplankton is an ideal food for mankind. It is Mother Nature’s milk from the ocean. The research we are in the process of designing at the University of Utah College of Health, will continue to discover the health benefits of Marine Phytoplankton. This is very exciting and promising.”

– Hugo Rodier, MD.

Adjunct professor in the Family Practice Program of Social Medicine at the University of Utah School of Medicine
