

## Quench - 2.78 FL oz/83.1 ml

Our multi-purpose moisturizing spray is one of our first and most popular products. Quench is a multi-purpose, topical moisturizing spray formulated with the highest quality, all-natural ingredients. Instead of being 95 percent filler like most similar products, Quench is made with 100 percent active, clean, and organic ingredients. It treats and feeds your thirsty skin by locking in the moisture, but because Quench is filler-free without synthetics, it still allows your skin to breathe freely. Use it as a facial cream, wrinkle smoother, body/face moisturizer, burn and bite soother, ointment for foot and body irritations, or an aid for massage and reflexology. It is health and beauty from the ground up.
