

Renew Lavender - 16 oz.

Cleanse and rehydrate with this aromatic, olive-oil-based exfoliating scrub. Use Renew - whether you're exfoliating and moisturizing your rough feet, elbows, heels, and knees or cleaning out the cracks on the rough, dry hands of an auto mechanic who has never been able to get his hands entirely clean. Renew is an aromatic mixture of antiseptic, sand-free salt in extra virgin olive oil, walnut oil, grape seed oil, essential oils and herbs. There are no harsh, synthetic chemicals or toxins that lead to dryness, irritation, or "lotion addiction."

- **No synthetic chemicals or toxins that are harsh on skin and can lead to dryness and irritation.**
- **Powerful cleansing, antiseptic, and moisturizing properties.**
- **Aiding Healing dry, cracked hands (exceptional with grease and grime).**
- **Softens elbows, knees, heels, and feet.**

Ingredients:

Extra virgin olive oil, salt, walnut oil, grape seed oil, lavender oil, rose geranium oil, gotu kola leaves, rosemary leaves, ginkgo biloba leaves and beet root powder.

Honor Your Health by Honoring Your Skin

This product is 100 percent biodegradable. It is naïve to think we can spread synthetic chemicals on our skin, the largest living organ of the body, day after day, and not suffer the potential consequences! The effectiveness of patches that allow medications to quickly absorb through the skin should be a warning to us that much of what we put on our skin ends up in our bloodstream. Numerous name-brand personal care products use ingredients that are also found in anti-freeze and engine degreasers, including DEA, a known carcinogen found in more than 600 home and personal care products including soaps, shampoos, and lotions. From skin contact alone the body can absorb and store potentially toxic chemicals throughout the body.
