

Exodus Support Group

Update: August 21, 2007

We have placed two more people in Rehab since the last update.

We were able to work with the Salt Lake County Courts and Probation Dept. to place a young man (does not want to be identified) into the Salt Lake City Mission (an eight month residential rehab).

We worked with the Utah County Courts and Probation Dept. to place a young lady named Crystal into Teen Challenge (a one year residential rehab).

We now have four in rehab and doing well.

Dillon (the first placement), has recently graduated the 90 day induction program and has been transferred to the "Castle" in Riverside, Ca.

Jennifer (the second), has been in 45 days. She has had the privilege of working the "Fire Camps" in Cali, Idaho and Wyoming. The staff has told me she is doing very well.

The young man is doing well and will be eligible for work release soon.

Crystal has just finished up her 2nd week and is "feeling good".

We have merged with the other support group mentioned in the last update. The Courts now recognize us, and refer those in drug court. I have to sign a lot of attendance papers!!! We will be meeting with another support group (that has 30-40 members) some time next month. Our band will be playing. We will be having a BBQ and games.
