- 8. Cash and Perks**

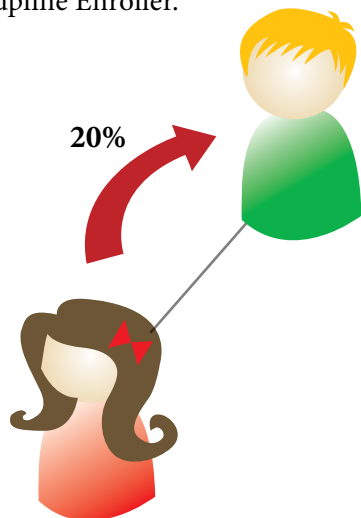

1. RETAIL PROFIT

Once you start your ForeverGreen business, you can purchase products from the company directly at wholesale pricing. You can then sell the products at the retail price and keep the profit*. You also earn retail profit when others purchase from your online shopping cart. The retail profit on those online purchases are added to your regular weekly checks. The volume from retail orders is counted as a part of your personal qualification up to 200 points. All the personal volume that exceeds 200 points will be counted as part of your small leg volume.

**Does not apply to countries on ForeverGreen's NFR (Not for Resale)/ No Fences program.*

2. 20% FASTSTART BONUS

FastStart Bonuses are calculated based on 20% of the enrollee's first CV order. You need to have at least 50QV to qualify for this bonus. If you do not have a qualifying purchase, then this bonus is compressed and paid to the next qualified upline Enroller.

3. 2% FASTSTART WORLDWIDE POOL

This pool is created based on the entire company's 2% CV generated in the week. Qualifiers share this pool equally. Qualified Enrollers earn one share for every two new enrollees with a minimum of 100 QV on Autoship. There is no limit on how many shares you can earn. You must have a minimum of 100 QV Autoship to qualify. This pool is exclusive for those who are qualified at the rank of Determined or lower.

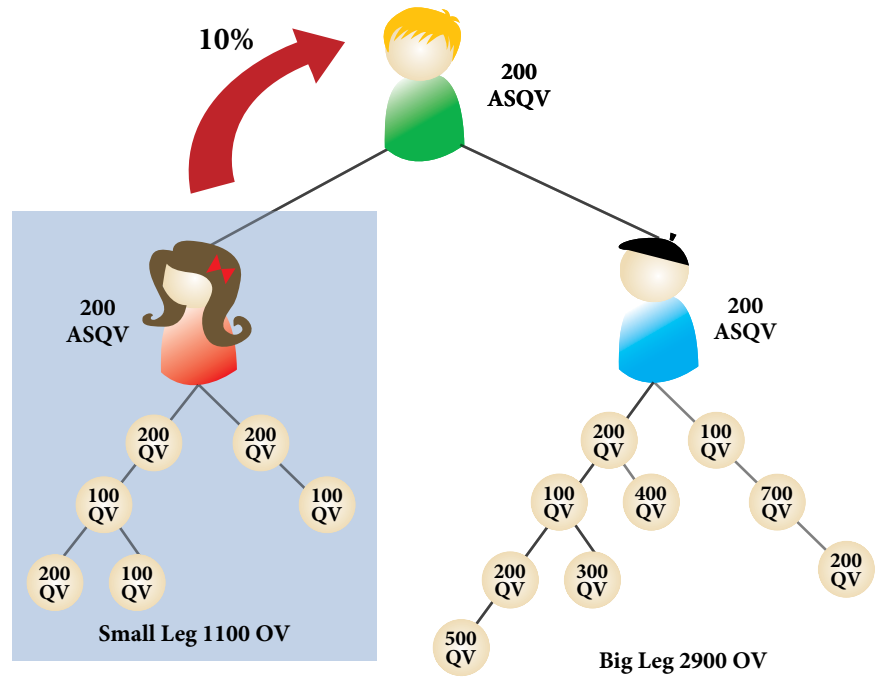

4. 10% GROWTH BONUS

People in your organization can be enrolled by you or placed into your legs by upline Members. This bonus is paid through your placement tree. You must be Winning Team Qualified to earn this bonus. Any unpaid volume carries over to the next week as long as you remain active by having at least 100 QV yourself at least once every four weeks. This bonus is limited to \$10,000 USD per week.

* No Rank Required to receive this bonus.

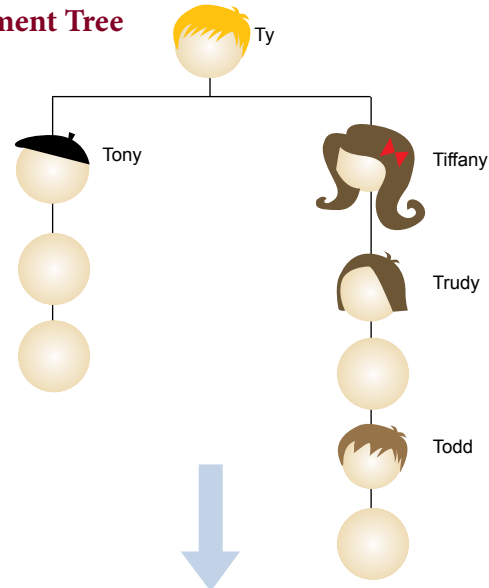

5. ENROLLER MATCHING BONUS

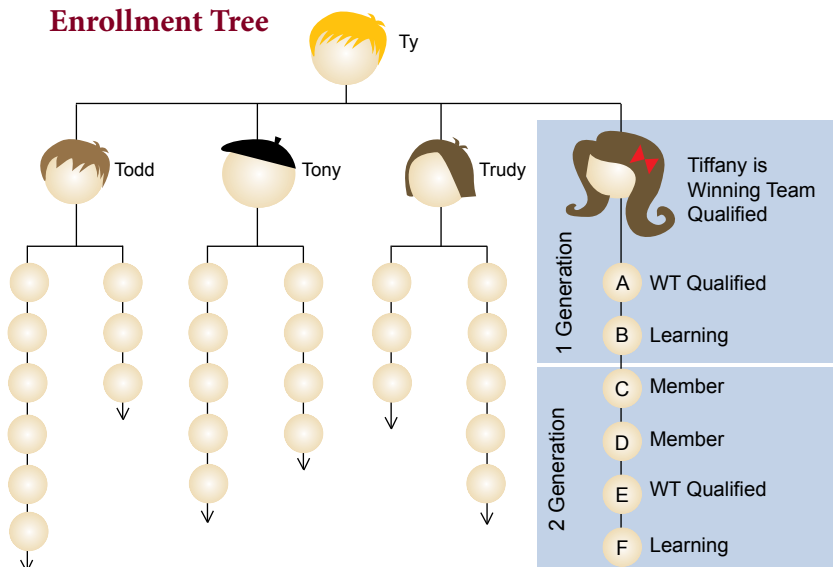

You need to be ranked at Determined or higher to earn this bonus. The ForeverGreen Money Tree Plan guarantees a 62% payout of the entire company's CV. The Enroller Matching Bonus is based on a floating percentage. The percentage is determined after the rest of the bonuses have been calculated, then all remaining bonuses are allocated to the Matching Bonus. This bonus is paid through your Enrollment Tree, matching on your team's 10% Growth Bonus. Each generation is defined as Learning, and all volume will be compressed to the next generation to ensure you earn your maximum potential. Your Enroller Matching Bonus cannot exceed your small leg volume. Make sure you are on the Autoship Program with 200 QV to qualify.

TERMINOLOGY

Enroller: The person who introduced you to the ForeverGreen business.

Placement Upline: The person you were placed directly under in the placement tree.

Small Leg: In the placement tree, there are two sides of the tree. Both sides contain Members that purchase products. The side with more volume is considered your **big leg**, and the side with less volume is considered your **small leg**. Measured weekly.

AS (Autoship Program): This program helps ensure that you stay qualified to receive bonuses. You can decide when you want your products to ship and which products you want to receive. You are also able to change, edit or cancel your Autoship order anytime you like. Not only is Autoship the most convenient way to stay on top of the game, but you also qualify for special benefits such as the ForeverGreen Power Tools (an online tool system valued monthly at \$20 USD) and more!

QV (Qualifying Volume): The sales that qualify you to earn commissions. Each product has its own assigned QV. To qualify for bonuses, you will need either 100 QV or 200 QV depending on your status. The QV will qualify you to earn weekly bonuses for the next 28 days.

CV (Commissionable Volume): The points on which commissions are calculated. Each product has its own assigned CV. In most countries, the CV amount is the same as the QV amount, but depending on the international market, we may need to adjust the CV in order for us to offer a more friendly selling price.

OV (Organizational Volume): Each Member’s QV added up together will become their OV. For example, if you have three people in your small leg and they each place a 100 QV order, the OV for your small leg will be 300.

WT (Winning Team): Next to Autoship, the most important cornerstone in the Money Tree Plan is a Winning Team. This is used to evaluate growth within your group and will help qualify you for more bonuses. Your success is measured on how many people in your groups are Winning Team Qualified. To qualify, you need to have a minimum of 100 QV, enroll two people who also have a minimum of 100 QV each, and have at least 500 OV in your small leg.
