

What is Marine Phytoplankton?

Phyto = "Light/Plant" Plankton = "Floating/Suspended"

Scientists at NASA theorize that ages ago, the world was changed forever. The appearance of tiny organisms with the ability to convert sunlight, warmth, water and minerals into protein, carbohydrates, vitamins and amino acids marked the beginning of life. Marine phytoplankton, these single-celled plants, are the basis of all other life forms on planet Earth and are the 'vegetation' of the ocean. Marine phytoplankton are consumed by the smallest to the largest forms of life. Whales that feed on plankton and krill are known to live up to 200 years.

Marine Phytoplankton are a major source of Earth's oxygen supply.

Whole Food Marine Phytoplankton

- 400 times the energy of any known plant
- a major source of the Earth's oxygen supply
- the first known food or plant on earth
- whales live on it
- more than 200 sea veggies
- nutritional analysis that is second-to-none
- nourishing and complete proprietary blend
- has eluded man until now
- exclusive to ForeverGreen

Nutritional Facts

Serving Size: 1/2 oz. (15ml)
Servings per Container: 32

	Amount per Serving	% DV
Calories	5	<0.5%
Total Carbohydrate	1.25gm	0.5%
Sugars (Natural Fruit Juices)	1.5gm	
Magnesium (Ionic Sea Mineral Blend)	8mg	4%
Selenium (Ionic Sea Mineral Blend)	5mcg	7%
Chloride (Ionic Sea Mineral Blend)	23.76mg	0.7%
Boron (Ionic Sea Mineral Blend)	40mcg	*
Aloe Vera Juice	1250mg	*
Marine Phytoplankton (Alpha3CMP™)	37.5mg	*
Cranberry Concentrate	650mg	*
White Grape Concentrate	250mg	*
Noni Juice	540mg	*

*Daily Value (DV) not established
**Percent Daily Values (DV) are based on a 2000 calorie diet.

Ingredients: Purified Water, Proprietary Blends of the following: Aloe Vera Juice, Cranberry Concentrate, White Grape Concentrate, Morinda Citrifolia (Noni Juice), Ionic Sea Trace Minerals, Alpha3 CMP Concentrated Marine Phytoplankton, Frankincense, Nutmeg, Astaxanthin, Ginger, Orange, Sweet Lime, Rose, Citric Acid, Rosemary Anti-Oxidant, Stevia, Natural Blueberry, Mango and Passion Fruit Concentrates.

Recommendations: Drink abundantly: at least two ounces (60 ml) per day. Make FrequenSea a habit for best results. May be taken alone or with food. Dilute in water if desired, kids will drink "as is".

A portion of every purchase is donated to environmental marine research and development.

FREQUENSEA™

Whole Food Miracle Fortified With Marine Phytoplankton

"I am excited to work with ForeverGreen to bring you my 28-day miracle program, and look forward to hearing more of your personal success stories."
—Tom Harper

Marine Phytoplankton

The **FIRST**, **BEST** and **FINAL** say in Health and Wellness!

first [furst]- *adj.* preceding all others in time, order, rank or importance.

Marine phytoplankton is **FIRST**.

- The FIRST food on Earth.
- Tom Harper's FIRST sea farm of its kind on Earth.
- ForeverGreen is the FIRST to market it exclusively!

best [best]- *adj.* offering or producing the greatest advantage, utility, or satisfaction; excelling all others.

Marine phytoplankton is **BEST**.

- The base of the plant kingdom, in and out of the ocean.
- NASA declared that marine phytoplankton is the major source of all the Earth's oxygen.
- We know that many whales, the largest mammals on the planet, live on marine phytoplankton up to 200 years.

final [fahyn-l]- *adj.* not to be altered or undone; of or relating to the ultimate purpose or result of a process.

Marine phytoplankton is **FINAL**.

- The FINAL say in health and wellness.
- Has 400 times the energy of any known plant.
- Boasts a nutritional analysis that is second-to-none.

Marine Phytoplankton is the "check mate" in the conversation of health and wellness.

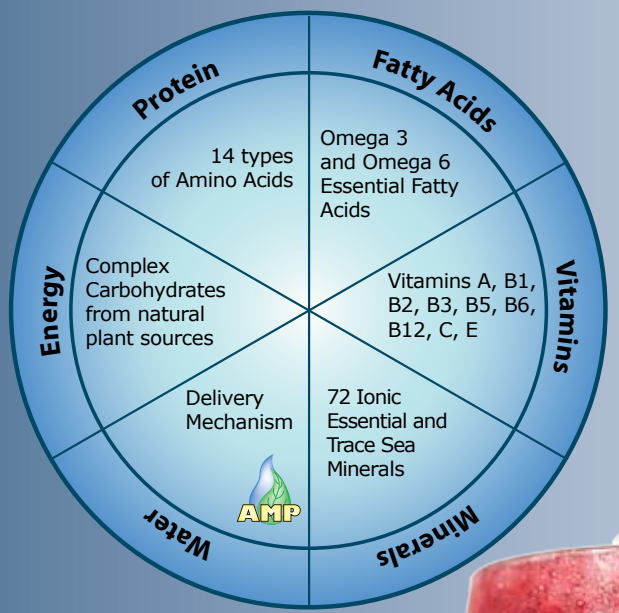

The human body will perform miracles when properly edified, and nothing edifies the body like

Marine Phytoplankton

Exclusive Patent-Pending Technology — AMP Process

(Aqueous Molecular Partitioning)
Nature intended us to benefit from the whole plant. The plant kingdom holds many secrets to health that we are only beginning to discover.

ForeverGreen uses a natural, environmentally conscious process to extract essential ingredients for Frequensea™. Instead of common extraction methods involving heat or nutrient-harming solvents, ForeverGreen uses CO₂ extraction to capture every nutrient from the whole plant without destroying its nutrients. When a certain amount of pressure is applied to CO₂ (carbon dioxide), it turns into liquid. Liquid CO₂ can be used as an inert, safe liquid solvent. CO₂ is the gas we exhale from our lungs. It is also the gas that plants thrive on. This unique CO₂ extraction process preserves the essential oils, resins, and powerful antioxidant-rich phytonutrients of the whole plant.

Once the CO₂ process is complete, how do we optimally absorb these amazing nutrients into our body? Before the oil components and the water-based components can blend together, an emulsifier is needed. Prior to ForeverGreen's exclusive AMP process, chemical-based emulsifiers were the only option. The AMP process is a technological breakthrough, emulsifying the plant components and rendering them water-soluble making the nutrients instantly bioavailable in the body. Nothing carries nutrients into our cells more effectively than water, as 70 percent of the human body is water and 94 percent of the brain is water. Today,

most supplements come in forms that are not easily absorbed, therefore you often pay for expensive supplements that are never actually utilized by your body.
